

KidHack

With roots in early electronica, a rave promoter in the 90's, pirate radio owner and manager, KidHack brings a fresh edge to the Bay Area dance scene. Based in San Francisco, Kidhack has toured around the world and killed local dance floors. The crowd goes crazy with his swiss army knife of mixing styles and genres. Spinning everything from electro bangers, minimal techno, glitchy dustup, and pop remixes. With friends in the industry and blog sphere, KidHack spins on the bleeding edge of music and culture.

Keeping busy, KidHack is in the process of building a premiere talent and promotion collective, Future Universal, focused on bringing some of the best talent to the masses. Past events include Efflorescence, Electropolis, Robotronika, Future, and Super Ego. Building on a long history of throwing some of the Bay Area's best parties, KidHack is constantly collaborating with promoters, DJs, and venue owners working on parties like Pop Roxx, LoveSick3, Bootie SF, and the Cal Academy of Science: Nightlife.

As a DJ, producer, entrepreneur, and promoter, KidHack is bringing dance back to the dance scene one beat at a time.
